

# 学术报告

报告题目：微生物技术在岩土工程中的应用

报告人：Prof. Jian Chu

时间：2014年7月15日（周二）下午三点

地点：安中建工大A418会议室

报告人简介：

**Dr CHU** received his Ph.D. from the University of New South Wales, Australia in 1991. He has more than 20 years' research and consulting experiences in geotechnical engineering, in particular in the areas of laboratory and in-situ testing, engineering properties of soils, soil improvement and land reclamation. He is the Chairman of ISSMGE TC39: Geotechnical Engineering for Coastal Disaster Mitigation and Rehabilitation, the Chair of Working Group C in ISSMGE TC17: Ground Improvement, and the Chair for the Joint Working Group on Geotechnical Engineering for Disaster Mitigation and Rehabilitation.

Dr Chu serves as the Co-Editor for Geotechnical Engineering, the Journal of Southeast Asian Geotechnical Society, and an editorial board member for two other international journals. He is a co-author of the book "Soil Improvement – Prefabricated Vertical Drain Techniques" and a co-editor of the book "Ground Improvement – Case Histories". He has published over 180 technical papers in international journals and conferences and has been a keynote or invited speaker at 18 local and international conferences. He is also a recipient of the prestigious R.M. Quigley Award from the Canadian Geotechnical Society for publishing the best paper in the Canadian Geotechnical Journal in 2003.
