

PhD Fellowships in Structural Engineering

Application deadline: 7 September 2015

Professor Jin-Guang Teng (滕锦光) of the Department of Civil and Environmental Engineering, The Hong Kong Polytechnic University, intends to nominate one or two outstanding candidates to compete for funding support by the prestigious Hong Kong PhD Fellowship Scheme. Professor Teng's current research interests include the structural use of fibre reinforced polymer (FRP) composites and other high-performance materials, life-cycle performance of structures, seismic assessment and retrofit of structures, and steel & thin-walled structures.

The Fellowship provides a monthly stipend of HK\$20,000 as well as a travel grant of HK\$10,000 per year for three years (for a master degree holder) or four years (for a bachelor degree holder). In addition, PolyU will waive the student's tuition fee for the entire study period. Further details of the Fellowship scheme can be found at

<http://www.polyu.edu.hk/ro/hkphd-fellowship/>

Successful applicants should normally be within the top 5% of his/her undergraduate class from a leading university and has an excellent mastery of English (e.g. an IELTS score not lower than 7). A master degree with significant research outcomes is an advantage but is not essential. Undergraduate students who will obtain their bachelor degree by the summer of 2015 are eligible and welcome to apply.

If you meet the above requirements and are interested in the PhD Fellowship, please email your CV to Prof. Jin-Guang Teng at cejgteng@polyu.edu.hk by 7 **September 2015**. Short-listed candidates will be interviewed by Prof. Teng in Hangzhou around **10 September 2015**.
