

关于印度理工学院Ankit Garg学术讲座的通知

报告题目: **Investigating soil-plant-water interactions in the context of slope remediation and agriculture**

报告人: **Ankit Garg**

时间: 星期四 (12月29日) 10: 00-11: 00

地点: 安中大楼A326

报告人简介:

Dr Ankit Garg is currently an Assistant Professor in Department of Civil Engineering at the Indian Institute of Technology (IIT), Guwahati, India. He is also a World Bank Monitoring Consultant for infrastructure projects in Assam, India. He obtained his PhD from The Hong Kong University of Science and Technology. His research focuses on investigation of fundamental unsaturated hydraulic properties of soil with vegetation and plant physical root and leaf characteristics, such as transpiration reduction function, root distribution, root area index and leaf area index. His work has been published in around 24 journals including inter-disciplinary journals such as “Journal of plant nutrition and soil science”, “Catena”, “Hydrological Processes”, “Ecological Engineering”.
